## About This Content

### The Book of the Righteous

#### A Complete Pantheon for Fifth Edition RPG Campaigns

*The most comprehensive pantheon in roleplaying games is back in a new edition for 5E. This massive tome provides more than 20 pick-up-and-play churches, whose organization and beliefs are described in lavish detail. These churches can be used in any campaign setting to bring a whole new level of detail to the religious characters. Plus, for those who don't have a complete cosmology in their game, The Book of the Righteous provides a comprehensive mythology that unifies all of the gods in the book. The original edition of Book of the Righteous was one of the most critically acclaimed books of the d20 era. Now Dungeons & Dragons Fifth Edition designers Robert J. Schwalb and Rodney Thompson have brought the new edition up to date with the 5E rules and the whole book is in glorious full color. The Book of the Righteous is truly a divine sourcebook like no other.*

*Authors: Aaron Loeb with Robert J. Schwalb and Rodney Thompson*

*Cover Artist: Brian Despain*

*Fantasy Grounds Conversion: Philip Greig (Zacchaeus)*

Released on August 13, 2017. Designed for Fantasy Grounds version 3.2.2 and higher.

**Requirements:** An active subscription or a one time purchase of a Fantasy Grounds Full or Ultimate license and the included

Title: Fantasy Grounds - The Book of the Righteous (5E)

Genre: Indie, RPG, Strategy

Developer:

SmiteWorks USA, LLC

Release Date: 24 Aug, 2017

a09c17d780

**Minimum:**

**OS:** Windows 7x , 8x or 10x

**Processor:** 1.6 GHz or higher processor

**Memory:** 1 GB RAM

**Graphics:** Graphics card recommended

**DirectX:** Version 9.0c

**Network:** Broadband Internet connection

**Storage:** 500 MB available space

**Sound Card:** a sound card is required for voice communication using external programs like Google Hangouts, Skype or Discord.

**Additional Notes:** Requirements vary by the add-ons installed and the number of players connecting to your game.

English

Available cards:

Player
Starting life: 60

**Mind Master**  
 Water creature, cost 11  
 Attack 6, life 22  
 Mind Master increases by 1  
 the growth of all owner's powers.

Draft consists of two steps. During the first step players take cards to their deck from card pool which is common for all draft participants. The available cards are divided into a group for each player. Each player selects one card from his group, then passes the remainder to the player on his left. The draft continues in this way until all cards are chosen. During the second step players fight using cards they have chosen in first step.

Fire	Water	Air	Earth	Goblins

Finish Game in 2 Days..

everything just perfect ♥♥. Lords of the Realm II, what is there not to love?

This here was a trip down memory lane.

100 hours of happiness so far + another 10k in the 90s

No complaints! Big bonus on the price! 2.99!. ehhhh.... Interesting concept. The themes involving grim existentialism, anxiety, and guilt were reminiscent of Kafka, which was neat, but overall I would not recommend purchasing this game. It's short and rather depressing.. It's an okay game, fun to mess around when there's not enough people for the actual game, the actual game is pretty fun too. There's a decent amount of cars and helicopters, the city is pretty big too.

Only flaws are that the game can become a little repetitive and you have to be on at the right time if you want a server with a decent amount of players, the camera angle is also a little clunky which makes it harder to see what is ahead of you and also there is no scoreboard or something to show your stats.

8/10. I was a bit cautious at first, but this re-imagining of the Worms franchise lives up to its predecessors. The land is destructible, the explosions are large, and the new Create-a-Weapon feature tops it off. If you can get past the bugginess of this title, it's a fun refreshing of old Worms fun.. Best Sandbox with Lego and play zombie mode. I recommend!. Funny, simple and very cheap game. You have some levels to complete and game mode, where your target is to beat your own record. Just like real life, the world isn't fair, and there isn't always a good ending. But it is these faults in our world that makes us appreciate more of the goods in our world.

I haven't unlock all the endings yet, but I am almost done. The game is rather short and will take you about 3-4 hours max if you skip the parts you've read before and make different choices to go for different endings.

Overall, not a bad game. Just a little short. It would be better if it was longer.. Don't get me wrong. The gameplay is ok for a survival game like this, but after you figured out how to deal with the game it's more like:

"Ok, let's get some more citizens ... oh no, food is missing. Let's produce some more... ok, now you don't have any clothes. Here are some cotton fields. Oh wait, i don't have enough wood at the moment, because for some reason I need wood to build crop fields" 10 minutes later "Ok, here are your cotton fields. Now I can build more houses, but first I need more wood" and so on. So after a while it gets boring and annoying, because it is really only survival part, without being creative like in other survival games, where you can build a city with individual houses for example.

If you still want to buy it, then keep in mind that this game is only good enough to fill up like 1 or 2 hours.

---

Easily one of the best VR games out there. It's fun, it plays well, and has no critical flaws.. Gameplay is good and its so fun. I enjoyed this game and was sad that it was so short. Only 3 hours for me. I liked the Arabian Nights theme with a mythical touch. I'm tired of horror, ghosts and asylum HOs!

Graphics were good, music was lovely (full orchestra) and dialogue amusing. Puzzles were fairly easy and HO scenes were few and far between I completely forgot about the palace markings, so missed that achievement!

I hope they make a sequel to this. 7.5 from me.. Sorry I got this. Even with graphics turned up on my 980TI I see a shimmering mess and yes I did fiddle with the graphics options. Controls suck. If you could move a little faster that would be better and I could live with it. Not recommended and will uninstall now. Felt instantly bored... with the repeating scenes.... It's not a bad game, but it is not worth \$14.99 its more a \$.99 game considering it only has 3 missions besides the skirmish. I do not recommend buying this.. This game should be bunched up and thrown away. Play Magicka instead, it is better in every conceivable way.. 09-28-2016 – picked this game up today and messed around with it for a few moments. And already I have to say I like it and it has a lot of potential, but it still needs a lot of work, especially the UI and controls. So with that being said I think ill hold onto the game and see where it goes as far as progress.. I love this editing program, I know its 10 euros a month, but I have with all my accounts above 500+ hours, and use it every day, I can recommend this if you like easy to use program and have many options, and you can make perfect videos.

I will make a change on here... Before Camtasia Studio leaves steam.... I wanna give a review on this editing software, if you are new at editing. Then you should use this program, it is so simple to use and even when you are an advanced user, then its still really good to use, I can surely recommend it, and Im sad that you wont be able to buy it forever on steam, but an only subscription... But for sure go for it if you are a new editor and want to learn the edit world better! I have actually used this program since 2010 and still does, its so fantastic and hope you will give it a try, but from June, its only available on Their official website, then you have to go to Techsmith official site and buy it... Im going to miss it on steam.

But after my opinion it's really the best edit software to use, and I have done so many lovely things with this software, and Imma be really sad when it's gone on Steam, since I dont really want to pay 140 dollars on their site for it, would rather give 10 euros every month in the long run, but they might not sell too well, guys GIVE IT A TRY! :D

If you have problems to renew it, you will have to add wallets to be able to still use it, then account details and go to "resubscribe" on the subscriptions, I was lost at the beginning but learned it fast, and now... I'm just really happy it works now! Just so sad they wont keep it on steam still, but well... Yeah it sucks!

60fps videos? You will need to go to Techsmiths official website and download TSCC\u00ae Code, then it should work if you go into the settings soonest you have made your project.. I love this game, I really wish there were more games in the Steam store like this that take a lot of lateral thought. They're in short supply though.. Really solid puzzle adventure game. I knew it'll be good based on the trailer. Well I hoped it'll be and it is.

Good classic gameplay, nice medium difficulty puzzles which makes sense. Some harder puzzles will force you to play a detective. Which is a good thing.

The art is great. Really matches the tone of the game and world.

The story is very strong in the game. I enjoyed it immensely. It has it's nice twists and I like when the story can surprise me.

Loved the game and highly recommend it!
